

— PERFORMANCE & BRILLIANT CLARITY

Major performance improvements¹:

- +50% max. lumen output²
- +34% lumen output in high mode³
- +21% max. beam range²⁺³

Brilliant clarity:

- State-of-the art manual focus on all models
- Sharp light picture
- Narrow spot – full, round flood
- Reduced yellow edges

Performance highlight:

New P21R with 140% higher lumen output⁴

1: New P Series compared to current model generation

2: on average over entire series, in boost mode

3: on average over entire series, in high mode

4: 12.000 lm in boost mode compared to 5.000 lm in current model X21R (501967)

Errors and omissions excepted.
