

## Ledlenser sheds a light on the game: The new torch and camping lantern for children

*Developed especially for children: The Kidbeam4 and Kidcamp6 are the latest additions to Ledlenser's KidsLights series.*

Solingen, March 2022 - **From now on, little adventurers from the age of three have plenty to choose from: In addition to the Kidled2 and Kidled4R children's headlamps, the lighting experts from Ledlenser now present the Kidbeam4 torch and the Kidcamp6 camping light – both designed for children. All lamps come with fun features such as flashing and brightly coloured lights. They are easy and safe to use and come in two cheerful designs: green dinosaurs or purple-blue rainbows.**

"Ledlenser as a brand caters for the whole family. These new lamps are especially designed for our youngest customers so that they can explore the world playfully with the proper light," says Philipp Elsner, Product Manager at Ledlenser. "To make them even more fun, we have equipped the new torch and the camping light with some features that will make children's hearts beat faster."

### **Kidbeam4: The torch for little explorers**

The Kidbeam4 torch is a versatile companion for all types of explorations - whether in the garden, at play or on the way home. The lamp is robust and can even withstand a fall from a height of 1.5 metres. The lamp provides sparkling brightness with 70 lumens; alternatively, it can be adjusted to a gentle 10 lumens. In any case, the reduced glare effect ensures that children's sensitive eyes are protected. In addition to classic white light, red, green and blue light add to the fun of playing. The flashing mode can be used to create exciting effects. There are also safety features included: the lamp is

operated with two alkaline batteries, which are stored in a lockable compartment. The light can be set to switch off automatically after 20 minutes in order to save energy. The torch weighs only 72 g and can also be attached with a clip, e.g., to the belt.

## **Kidcamp6: Camping light, reading lamp, disco ball**

Cosy reading light or flashing party fun? The Kidcamp6 is both, making it a universal light source for many occasions, whether on a camping holiday or at a birthday party for children. Thanks to the fold-out hook, the round lamp can be easily attached to a tent pole for instance. As the Kidbeam4, the lamp comes with four light colours (static white, red, blue and green), which help to create different moods - from the jungle to a pirate ship. When set to flashing mode, Kidbeam6 transforms into a little disco ball. In power mode, 60 lumens provide pleasant brightness for reading or playing. Thanks to the glare-free optics, the light is easy on the eyes. In low power mode, the light is dimmed to a gentle 10 lumens. Thus, the lamp can also be used as a cosy light to go to sleep by, which turns off after 20 minutes thanks to the automatic switch-off mode. The Kidcamp 6 also features a lockable battery compartment.

## **Prices and availability**

Kidbeam4 and Kidcamp6 are suitable for children from the age of three. Both lamps are now available in Ledlenser's online shop: <https://shop.ledlenser.com/>.

Kidbeam4 costs 19.90 Euros, Kidcamp6 is available at an RRP of 18.90 Euros. Also available are the headlamps Kidled2 at an RRP of 15.90 Euros and Kidled4 at 19.90 Euros. All prices include VAT.
